Single Cell Immunology

Symposium by Finnish Society for Immunology

08.30	Opening: Tapio Lönnberg	12.30	Lunch break and exhibition
Session I		Session III	
08.35	Deepak Rao, Harvard University: "T cell-B cell interactions in human autoimmunity"	13.30	PhD awardee
09.30	Petter Brodin, Karolinska Institutet: "Shaping of human immune systems by environmental influences early in life"	13.55	AH sponsored talk
10.15	BD sponsored talk	14.20	Pia Rantakari, University of Turku: "Single-cell mass cytometry reveals the heterogeneity of tissue-resident macrophages in endocrine tissues"
10.40	Coffee and exhibition	14.55	Coffee and exhibition
Session II		15.25	Roser Vento-Tormo, Wellcome Sanger Institute, UK: "Mapping the female reproductive tissue one cell at a time"
11.10	Satu Mustjoki, University of Helsinki: "Single cell RNA seq analysis of lymphocyte responses during immuno-oncology therapy in melanoma patients"	16.10	Céline Vandamme, University of Eastern Finland: "Single cell analysis of allergen-specific and autoreactive CD4+ T cells using the CD154-enrichment method"
11.45	Luís Graça, Instituto de Medicina Molecular Lisboa, Portugal: "Tissue adaptation of follicular T cell subsets"	16.45	Closing: Tapio Lönnberg
